PAID TIME OFF (PTO)

We recognize the importance of time off from work to relax and recharge, so our PTO plan provides a generous amount of time off for full-time employees to use however they choose - sick, vacation, personal, etc. Part-time employees whose regular schedule is 30–39 hours/week are provided pro-rated time off.

The company is closed in observance of 7 holidays. Employees who choose to work on those holidays may take another holiday in place of, or use PTO to take off additional holidays.

FLEXIBILITY

We believe that employees with a work-life balance find more fulfillment in their work and will be more effective in delivering value for our clients. Employees have flexibility on where and when they work through our Workplace Flexibility program.

HEALTH

We care about the well-being of our staff and their families. The company pays the majority of the individual premium for selected plans and makes a generous contribution to the family plan premiums. In addition, the company makes a generous contribution to Health Savings Accounts (\$1440/individual or \$1800/family annually – accrued each pay period) that work with our health plans (HDHP).

The company also contributes to supplemental Cancer and ICU income plans.
